

Corporate Capabilities Overview

End-to-End Managed Network Services & Solutions

Big Firm Reach. Small Firm Agility.

Global Provider of Secure, Reliable Communications Networks

Headquartered in the Washington, D.C. metro area, UltiSat is a facilities-based, technology-enabled provider of end-to-end managed network products and services. We go where our customers are and deliver solutions at some of the most remote and harsh locations on the planet, currently “on the ground” in over 130 countries on 7 continents, including Antarctica.

Teleport Services—Blavaand, Denmark

UltiSat is a nimble, responsive “one-stop shop” that guarantees some of the strictest, performance-based SLAs in the industry. UltiSat’s technical expertise and technology-agnostic approach ensures that every customer gets best-fit/best-value solution for their needs.

Where We Are

UltiSat Installation Sites

UltiSat has served customers in over 130 countries across the globe in some of the most remote, austere, and harsh environments.

Markets We Serve

UltiSat has over 150 employees; a multilingual, state-of-the-art, secure NOC in Gaithersburg, MD; teleport facility in Blaavand, Denmark; and sales offices in San Diego, CA, and Geneva, Switzerland. Its global reach also includes over 50 strategic GVF-certified Field Service Representatives (FSR) dispatch points around the world.

UltiSat offers a comprehensive range of integrated satellite, wireless, and information technology and security solutions to support mission-critical applications on land, sea, and air.
